

Helping ensure internet access is not a barrier to a child's education.

We launched Project 10Million as our commitment to close the digital divide by providing students with free internet, free mobile hotspots, and at-cost devices.

T-Mobile launched Project 10 Million as a commitment to close the homework gap. They have partnered with Big Brothers Big Sisters to provide students up to 12th grade with FREE internet through FREE mobile hotspots with 100MB of internet per year for 5 years.

To take advantage of the offer, contact Kelly at 251.294.6169. Big Brothers Big Sisters will provide you with a verification letter. You will then go to a designated web site, load a picture of the letter on the site, enter in your email and address, child's student ID number, the school district name, and submit.

There is no charge to the family. There is no obligation from the family once they receive the device. We hope our families can utilize this gift and the 100MB of data to support our Littles learning and access to resources online.
